5-hectare lot in Nansal, Penonomé, Coclé

En Venta

\$125,000

Descripción de la propiedad

This 5-hectare lot is located in Nansal, Penonomé, Coclé, 16 kilometers from the town center and 3 kilometers from the nearest paved road. The property has access to essential utilities, including electricity and water from a natural spring. The land offers a mix of flat and uneven terrain, with wild trees throughout. At the back of the lot, you'll find the Rio Chorrera, which serves as a boundary between Antón and Penonomé. This area is known for its white sandy riverbanks and clear views of the Anton mountain range. The location is within a tourist area, and future plans include the construction of a bridge near El Machetazo in Penonomé, which will shorten the travel time to the property. This lot is suitable for various types of projects, whether for personal use or investment purposes, in a developing area of Coclé.
